

AXIS P3265-V Dome Camera

Indoor 2 MP dome with deep learning

Featuring Lightfinder 2.0 and Forensic WDR, AXIS P3265-V delivers excellent image quality and forensic usability under any light conditions. Based on the latest Axis system-on-chip (SoC) with a deep learning processing unit, it enables advanced features and powerful analytics based on deep learning on the edge. And with AXIS Object Analytics preinstalled, it offers highly nuanced object classification and fast search in the VMS. This robust camera features audio and I/O connectivity so you can integrate other peripheral equipment such as a microphone to enable audio analytics. Furthermore, with built-in cybersecurity features such as Axis Edge Vault, it prevents unauthorized access and safeguards your system.
